

## **RONALD DEWS JR.**

Global Healthcare Enterprise IT Operations Executive | ITSM & ServiceNow Transformation Leader | International, US Continental, or Mid-Atlantic | [ronald.dews@gmail.com](mailto:ronald.dews@gmail.com) | 804.852.4420  
[www.ronalddewsjr.com](http://www.ronalddewsjr.com)

### **EXECUTIVE SUMMARY**

Healthcare Enterprise IT Operations Executive with a 20+ year track record stabilizing complex environments, governing 10,000+ cloud systems, and turning ITSM discipline into hard financial outcomes for Fortune 50/500 healthcare and technology organizations. Delivers quantified impact including \$2.5M+ in combined risk mitigation and cost avoidance, 99%+ availability across 10,000+ systems, 8% YoY reduction in high priority incidents, and \$900K+ in product revenue generation.

Brings a rare blend of deep ITSM/ServiceNow expertise, business continuity leadership, and hardware innovation (two U.S. patents). Communicates seamlessly with C-suite and boards; keynote speaker at the Association of Maternal & Child Health Conference (2025). Holds an M.S. in Strategic Marketing and a B.S. in Computer Information Systems, with ITIL and AI & Predictive Intelligence certifications.

Targeting Sr. Director / VP, Enterprise IT Operations, ITSM Transformation, or Business Continuity roles within Fortune 500 healthcare payers, providers, or health tech organizations.

### **EXECUTIVE EXPERIENCE**

#### **GLOBAL HEAD, ENTERPRISE IT OPERATIONS & SECURITY – HEALTHCARE IBM – Kyndryl | Glastonbury, CT | Jul 2022 – Present**

Led enterprise IT operations governance, release management, and incident response for 10,000+ cloud systems supporting 35,000+ associates for a Fortune 50 healthcare insurer.

- Delivered \$2.5M+ in combined risk mitigation, cost avoidance, and preserved operational value through an enterprise release governance framework, disciplined CAB structure, and predictive analytics driven collision prevention.
- Reduced high-blast-radius incidents by 95% across 3,000+ production servers and processed 75,000+ changes annually at 95%+ compliance, maintaining 99%+ availability and <90-minute MTTR for critical health platforms.
- Achieved \$500K+ annualized cost avoidance via 8% YoY reduction in high-priority incidents and automated governance reporting (Tableau + Power Automate), eliminating 40+ hours per month of manual reporting labor.
- Directed global incident response during the CrowdStrike outage, placing 500+ changes on hold within 2.5 hours and averting an estimated \$10M+ in disruption while maintaining confidence across a 35,000+ associate base.

- Coached cross-functional teams through 90+ coaching sessions and 40+ process audits, lifting ITSM adherence, change success rate, and executive trust in IT operations.

## **ENTERPRISE ITSM OPERATIONS LEADER – HEALTHCARE**

### **IBM – Kyndryl | Mid-Atlantic | Jan 2024 – Nov 2025**

Enterprise owner for infrastructure release planning and ITSM governance across monthly/quarterly cycles for Fortune 50 healthcare insurers.

- Generated \$1.2M+ in savings and value protection by tightening release processes, filtering out >100 high-risk changes in five hours, and sustaining MTTR under 90 minutes with <0.9 high-priority incidents per business day.
- Orchestrated 12+ major infrastructure release cycles and multiple off-cycle events with 100% on-time governance reviews, including a zero-outage Annual Enrollment Period protecting an estimated \$500K+ in revenue.
- Modernized ServiceNow Change workflows and predictive intelligence features to reduce release collisions and embedded Tableau/Power Automate dashboards, saving 40+ hours/month in reporting across the enterprise.

## **CONSULTING LEAD, BUSINESS CONTINUITY – HEALTHCARE OPERATIONS**

### **IBM – Kyndryl | Richmond, VA | Aug 2021 – Jul 2022**

- Mitigated \$2M+ in operational risk for a flagship digital health application by redesigning communication protocols between business leaders and cross functional support teams, cutting potential recovery times by 60%.
- Led ISO 22301 aligned risk evaluations and disaster-recovery exercises, preventing audit findings and remediation costs estimated at \$300K+ while hardening the organization's business continuity posture.

## **SENIOR MANAGER, HEALTHCARE OPERATIONS ADVISOR**

### **IBM | Richmond, VA | Aug 2020 – Aug 2021**

Directed enterprise technical communications and knowledge strategy for a 24x7 tier-2 monitoring center serving a Fortune 50 healthcare insurer.

- Realized \$300K+ in labor and productivity gains through a comprehensive knowledge management program (125 SharePoint articles, 300+ training docs, 10,000+ pages of e-learning), cutting onboarding time by 50%.
- Partnered with C-suite leaders to apply ITIL 4 disciplines and predictive analytics, reducing high-priority incidents by 8% YoY and avoiding \$100K+ in incident-driven cost.

- Managed crisis communications for a 35,000+ associate population, ensuring rapid, clear executive updates and minimizing escalation friction during major incidents.

### **SENIOR ANALYST, HEALTHCARE OPERATIONS (CONSULTING)**

**Anthem | Richmond, VA | Jan 2020 – Aug 2020**

- Built a 16 module instructional video library for mission critical systems, reducing live training time by 60% and generating \$150K+ in annual training and productivity savings.

### **EARLY CAREER – TECHNOLOGY & PRODUCT INNOVATION (\$5.2B Impact)**

#### **PRODUCT DEVELOPMENT ENGINEER & TECHNICAL INNOVATION LEAD**

**Xerox | Rochester, NY | May 1998 – Jan 2020**

Progressive engineering and product development roles contributing to Xerox's production color portfolio.

- My team played a key role in a product family that contributed \$5.2B+ in revenue within a \$17.2B corporate revenue period, including the DocuColor 260 enterprise printing system.
- Co-developed new design specifications and refurbish processes that met 100% compliance with international quality standards and improved time-to-market by 6 months, driving market share and OEM partnerships.
- Led teams of test engineers to achieve 98% of specification coverage across beta and QA, strengthening product reliability and channel readiness.

### **LEADERSHIP & BOARD / COMMUNITY EXPERIENCE**

**President, Xi Delta Lambda Chapter – Alpha Phi Alpha Fraternity, Inc.**

**Richmond, VA | Aug 2022 – Present**

- Secured over \$105K in annual grant funding and established community partnerships, resulting in \$5K+ in donated services and the collection of over 40 gallons of blood to support sickle cell and broader community health programs.
- Delivered keynote address at the Association of Maternal & Child Health Conference (2025) on "Care Leadership," demonstrating executive-level communication to healthcare leaders and policy professionals.

**EDUCATION**

- M.S., Strategic Marketing, Roberts Wesleyan University
- B.S., Computer Information Systems, Xavier University of Louisiana

**PATENTS**

- Peripheral Interface Port Hub Apparatus, U.S. Patent #8578072
- Spring Loaded Friction Driver, U.S. Patent #20100308097

**CERTIFICATIONS**

- ITIL Foundation Certificate in IT Service Management (PeopleCert)
- AI & Predictive Intelligence for ITSM (2024)
- Enterprise Design Thinking Practitioner (IBM)
- IBM Cloud Core & Essentials
- Lean Six Sigma Green Belt
